

CALFED BAY-DELTA PROGRAM

DRAFT AFFECTED ENVIRONMENT TECHNICAL REPORTS

SEPTEMBER 1996

The following draft reports have been prepared describing environmental conditions in the San Francisco Bay/Sacramento-San Joaquin Delta region. This first set of preliminary reports focuses on prominent conditions in the Delta region. Subsequent documents will be prepared to address other related issues and topics as well as the overall CALFED "solution area." If you have any questions or would like copies of other reports in this series, please contact Ray McDowell at (916) 657-2666.

PHYSICAL ENVIRONMENT

- Water Supply and Operations in the Delta Region
- Water Quality in the Delta Region
- Hydrodynamics in the Delta Region
- Soils and Geomorphology in the Delta Region
- Air Quality in the Delta Region
